AERON MARKETS · SOCIAL TRADING · FOR EDUCATIONAL PURPOSES ONLY

Getting Started with *Social Trading* on Aeron Markets

A visual, step-by-step guide to opening your account, funding it, and connecting it to the social traders you choose. Follow each step in order and you will be up and running in no time.

OVERVIEW

This guide walks you through everything you need to do to get your account set up on **Aeron Markets** and connect with your chosen social traders. Work through each step carefully. The order matters, because later steps depend on earlier ones being complete.

A Open your account

C Request your wallets

E Connect to a social trader

G Monitor on the MetaTrader 5 app

B Choose your traders

D Fund your trading accounts

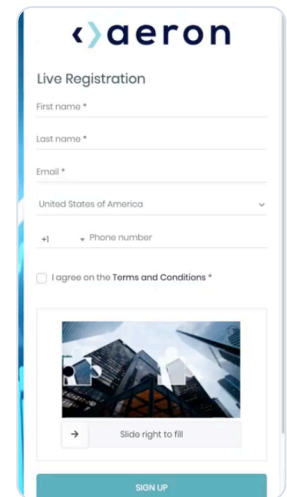

F Sentinel Suite: VIP Copier Direct Connect

A PART A Open your account

01 Register using your introducer's link

Use the unique link provided by your introducer to open the Aeron Markets live registration form. Fill in your name, email, country, and phone number, tick the Terms and Conditions box, complete the slider, then click **Sign Up**.

Always use the link your introducer sent you. It is what connects your new account to the Sterling education and support you are reading now.

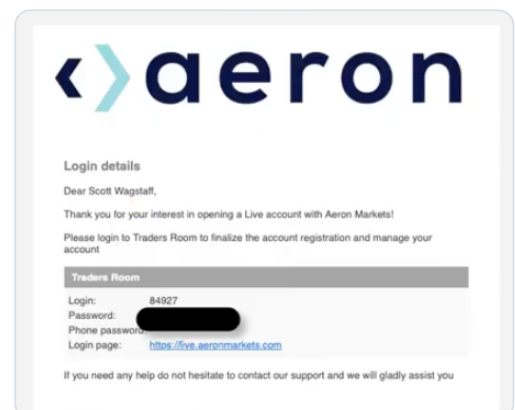

A screenshot of the Aeron Markets Live Registration form. The form includes fields for First name, Last name, Email, and Phone number (with a dropdown for country code). There is a dropdown for the United States of America. A checkbox for "I agree on the Terms and Conditions" is present. Below the checkbox is a slider image showing a city skyline. At the bottom is a "SIGN UP" button.

02 Receive your Aeron Markets back office credentials

Within **24 hours** you will receive an email from **support@aeronmarkets.com** titled *Login details*. It contains your Traders Room login number, your password, and the login page link.

CHECK YOUR INBOX

Check your spam or junk folder if you do not see it within 24 hours. Keep this email safe. It is your key to the back office.

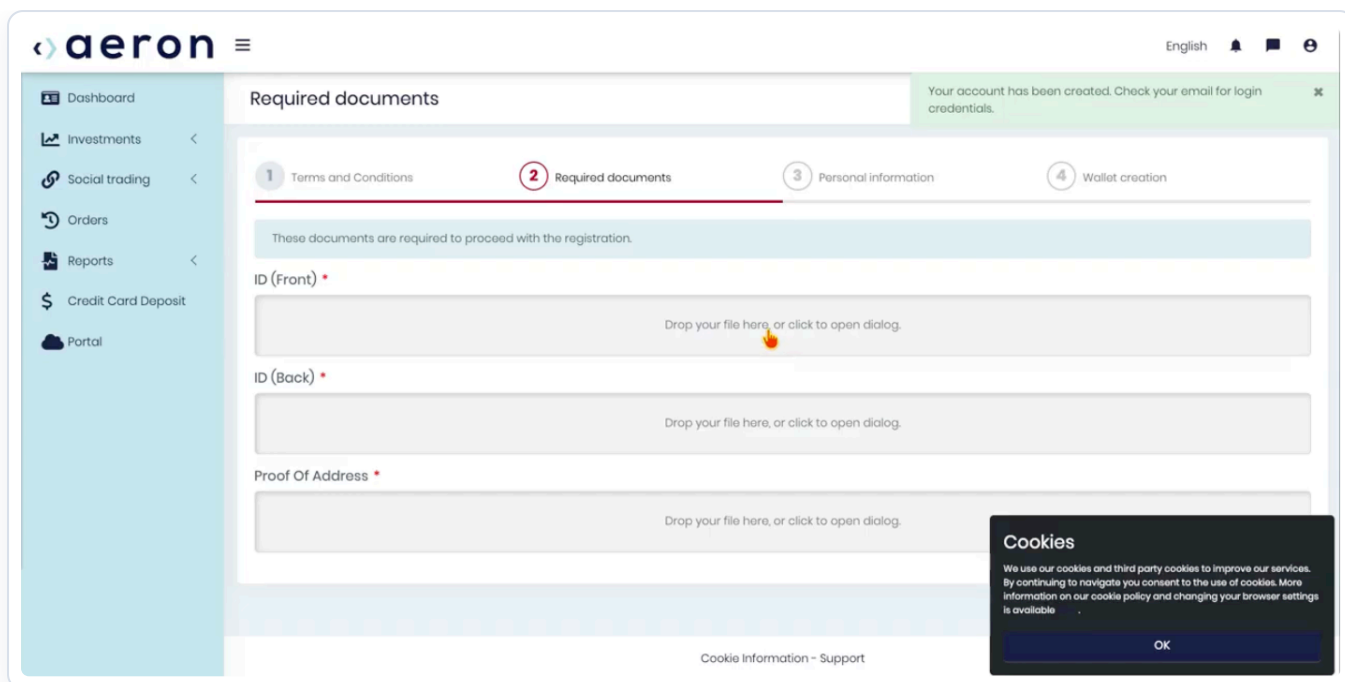

03 Log in to your Aeron Markets back office

Using the login details from your email, sign in at live.aeronmarkets.com. This portal is called the **Traders Room**. It is where you will request wallets, make deposits, and connect to social traders.

04 Upload your KYC documents and accept the terms

On first login you will be asked to complete Aeron Markets' own Know Your Customer (KYC) process. Accept the Terms and Conditions, then upload three documents: the **front of your ID**, the **back of your ID**, and a **proof of address** (a recent utility bill or bank statement works well). Complete all required fields before proceeding.

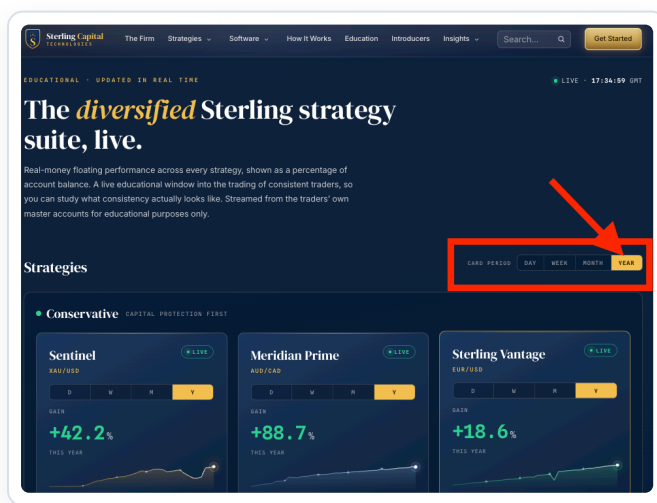

The Required Documents screen. Drag each file into its box, or click to open a file dialog.

B PART B Choose your traders

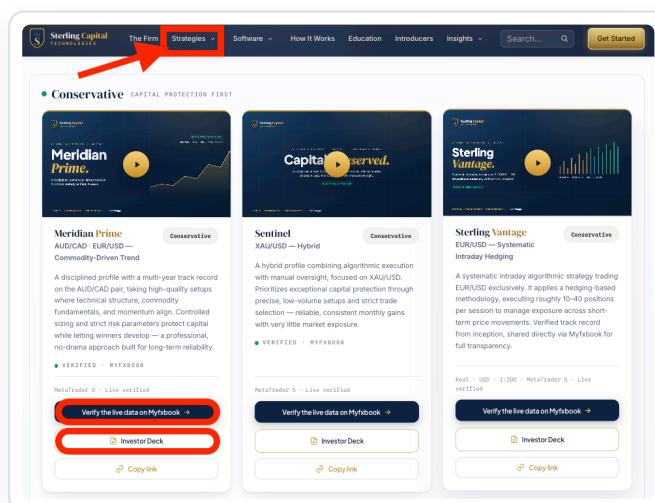

05 Review each trader's historical and live results

Before you request any wallets, take time to study the traders. The number of traders you decide to follow determines how many wallets you request in Part C. There are two places to look:

- **Live Study** at sterlingcapital.tech/live-study. Real-money floating performance for every strategy, streamed from the traders' own master accounts. Use the **Card Period** toggle to switch between Day, Week, Month, and Year.
- **Strategies** at sterlingcapital.tech/#strategies. Each strategy card carries a **Verify the live data on Myfxbook** button (independent third-party verification) and an **Investor Deck** that explains how the trader works.

Live Study. Set the Card Period to Year or Month to see the bigger picture.

Strategies section. Open the Myfxbook record and the Investor Deck for each trader.

06 Decide on your mix: conservative, moderate, or higher risk

The traders are grouped by risk profile. You can follow a single trader, or diversify by opening several trading accounts and spreading them across a mix of profiles. Both approaches are valid. It is entirely your decision.

Conservative

CAPITAL PROTECTION FIRST

Lower exposure, steadier equity curve. Designed to protect capital while letting winners develop.

Moderate

BALANCED

A middle ground between protection and growth, with more frequent activity than conservative profiles.

Higher risk

GROWTH FOCUS

Larger swings in both directions. Only suitable for capital you are comfortable seeing move.

DIVERSIFICATION MEANS SEPARATE ACCOUNTS

Each trading account can only follow one trader at a time (see Part C). If you want to follow three traders, you will open three wallets, fund each one, and connect each one separately. Past performance does not guarantee future results and all trading carries risk of loss.

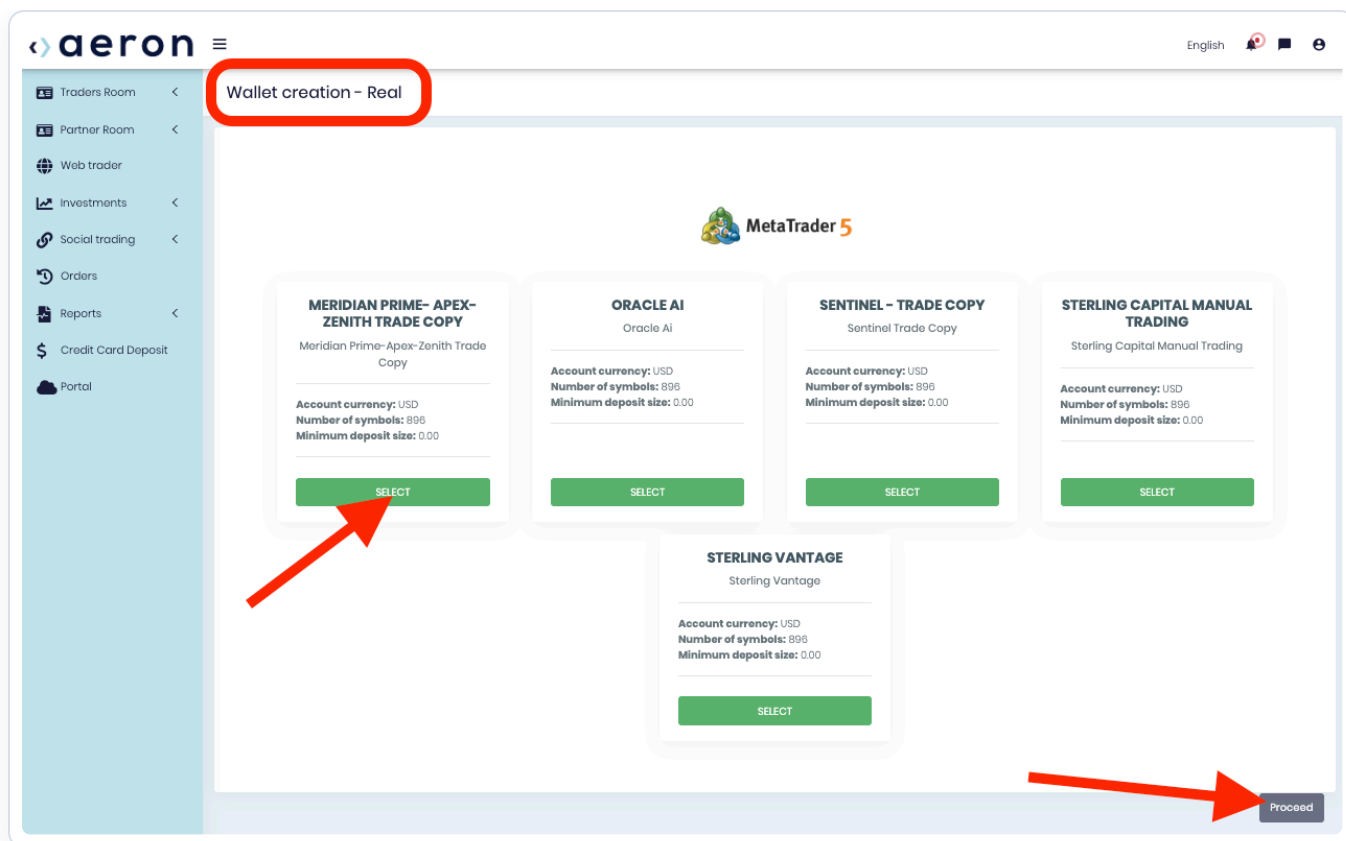

C PART C Request your wallets

1 Wallet = 1 Trading Account = 1 Trader

In the Aeron back office a wallet is a trading account. One trading account can only follow one trader at a time, which is why the wallet types are named after the traders. Following three traders means requesting three wallets.

07 Select the wallet type that matches your trader

In the Traders Room, go to your **Trader Dashboard** and click **Request new wallet**. On the Wallet creation screen, click **Select** under the wallet type that corresponds to the trader you plan to follow, then click **Proceed**.

Wallet creation. One card per trader family. Select, then Proceed.

WALLET TYPE	USE IT FOR	FOLLOWING MORE THAN ONE?
Meridian Prime · Apex · Zenith	Meridian Prime, Prime Apex, or Prime Zenith	Request it once per trader (up to three)
Sentinel	Sentinel, Sentinel X, or Sentinel Z	Request it once per trader (up to three)
Oracle A.I.	Oracle A.I.	One wallet
Sterling Vantage	Sterling Vantage	One wallet
Sterling Capital Manual Trading	Your own manual trading, not social trading	Optional

08 Wait for the wallet to populate (up to 24 hours, Monday to Friday)

Your request appears under **Requested wallets** as pending. The broker creates wallets during UK business hours, Monday to Friday only. Requests made on a weekend are processed on Monday. Once it is active it moves up into the main wallet list with a green dot, an MT5 badge, and, most importantly, a **Trading account number**.

Investment account [View](#)

Total	USD 0.00
Available	USD 0.00
Pending investments	USD 0.00

Wallets [Deposit](#) [Withdraw](#)

Total Balance USD 534.65

Wallets Transactions Activity log

[Request new wallet](#) [Move money](#)

Wallet	Leverage	Balance	Equity	Credits	Trading account
Populated/Active Wallet/Trading Account MT5 #359473 - Meridian Prime	1:500	USD 534.65	496.72	0.00	3145
MT5 #358795 - SentinelZ	1:500	USD 0.00	0.00	0.00	3135

Requested wallets **Pending**

Requested	Wallet type	Currency	Leverage	Wallet name
1 second ago	Trading account	USD	100	

[Cancel request](#)

Top: an active wallet with its four-digit trading account number (3145). Bottom: a freshly requested wallet, still pending.

THE NUMBER YOU WILL USE EVERYWHERE

The four-digit **trading account number** in the far-right column is how you reference this wallet from now on: when depositing, when connecting to a trader, and when logging in to MetaTrader 5. Note it down.

09 Rename a wallet (optional)

Wallets now arrive already named after the trader family. If you ever want to tell two similar wallets apart, for example three Sentinel wallets, you can rename them:

- 1 On the Trader Dashboard, click the **three dots (:)** at the far right of the wallet row, just after the Trading account column.
- 2 Choose **Rename Wallet** from the dropdown.
- 3 Edit the name, for example *Sentinel* to *SentinelZ*, and click **Save**.

PART D Fund your trading accounts

MINIMUM BALANCE PER TRADER

Every trader has a minimum balance before you can connect a trading account. Fund each wallet to at least the figure below for the trader it will follow.

TRADER	MINIMUM PER TRADING ACCOUNT
Sterling Vantage	\$10,000
Oracle A.I.	\$5,000
Meridian Prime · Prime Apex · Prime Zenith	\$1,000 each
Sentinel · Sentinel X · Sentinel Z	\$1,000 each

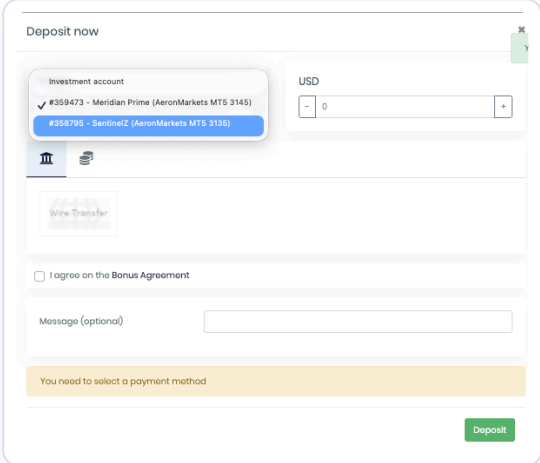

10 Open the deposit window and choose the wallet

On the Trader Dashboard click the **Deposit** button. In the **Investment account** dropdown at the top left, select the wallet you want to fund. Each wallet is listed with its trader name and trading account number, so pick carefully if you hold more than one.

Type the amount in **USD** in the box on the right, then choose a funding method using the two icons below: the **bank icon** for a wire transfer, or the **coins icon** for crypto.

NEVER TICK THE BONUS AGREEMENT

Leave **I agree on the Bonus Agreement** unchecked on every deposit. Bonuses are not compatible with social trading and will interfere with your account.

Wallet dropdown, USD amount, and the two funding icons.

11 Bank wire: click the bank icon, then Wire Transfer

Select the bank icon, click **Wire Transfer**, then **Deposit** and **Proceed**. The broker's bank details appear, along with a code labelled **Your identifier**.

Put this identifier in the **memo or reference field** of the transfer from your bank. It is how the broker knows which wallet to credit.

ONE IDENTIFIER PER DEPOSIT

A new identifier is generated every time you click Proceed.

Always start a new deposit for every transfer and never reuse an old identifier, or your funds cannot be matched to your account.

You can click **Export PDF** to keep a copy of the details for your bank.

Deposit now

Broker bank details

Please make a transfer from your bank account to the following account.

Account holder

Account holder's name (beneficiary) Client funds- AM

IBAN GB39IFXS23229043122735

Bank details

Bank name IFX Payments

Bank address The Carter, 11 Pilgrim Street, EC4V 6RN

Account number 11223344

SWIFT/BIC code IFXSGB33

Sort code 232290

Transaction amount USD 20,000.00

Your identifier S99KCN

Enter your identifier in the message to recipient.

Close window Export PDF

Broker bank details with the unique identifier at the bottom.

12 Crypto: click the coins icon, CoinPayments, then choose your coin

Select the coins icon and click the **CoinPayments** tile. A list of currencies appears at the bottom of the window. Only five of them work for deposits:

- ▶ **BTC** (Bitcoin)
- ▶ **ETH** (Ethereum)
- ▶ **SOL** (Solana)
- ▶ **USDT.ERC20** (Tether on Ethereum)
- ▶ **USDT.TRC20** (Tether on Tron)

Ignore every other option. Select your coin, leave the Bonus Agreement unchecked, and click **Deposit**, then **Proceed**.

POP-UP BLOCKER

Proceed opens coinpayments.net in a new tab or window. If you use a pop-up blocker, allow pop-ups for CoinPayments when your browser asks, or switch the blocker off, otherwise the payment page will not appear.

Deposit now

Wallet #359473 - Meridian Prima (AeronMarkets M)

USD - 20000

Verification Code: 44fe9b15-93c65df494f7c0864920cfe (save in case there are any issues with your payment)

VERY IMPORTANT: AMOUNT IS 49 CENTS MORE THAN DEPOSIT. WHEN SENDING CRYPTO MAKE SURE IT IS THE EXACT AMOUNT SHOWN HERE OR DEPOSIT WILL FAIL

What to do next? +

What if I accidentally don't send enough? +

[User Agreement](#) | [Privacy Policy](#)

CoinPayments. Amount Remaining on the left, deposit address in the middle, timer on the right.

- **Amount Remaining** will always be slightly more than the USD figure you typed, usually a few cents (for example \$20,000 becomes 20,000.49 USDT). **Send that exact amount.** Sending a different figure will delay or fail the deposit.
- **Address:** copy and paste it into your wallet, or scan the left-hand QR code (with amount) using the DeFi wallet on your phone so both the address and amount populate for you.
- **Timer:** you have **3 hours** to complete the transfer. If the timer runs out the deposit fails and you must start a new one.
- Send over the correct network only (the page tells you which) and with a regular transfer, not a smart-contract send. Make sure you cover any network fee on top.

14 Processing times

METHOD	PROCESSING TIME
Crypto	Auto-credited, typically within minutes, for amounts under \$10,000. Over \$10,000 requires broker approval, up to 24 hours, Monday to Friday only.
Bank wire	24 to 48 hours, though timing varies depending on your bank type and location.

CHECK THE MINIMUMS

Before connecting, make sure each wallet holds at least the minimum for its trader (table at the start of Part D). The social trading board also shows the minimum when you click Follow (Part E).

E PART E Connect to a social trader

TWO CONNECTION ROUTES

Meridian Prime, Prime Apex, Prime Zenith, Oracle A.I., and Sterling Vantage are connected through the Social Trading board inside your Aeron back office, covered in this part. **The Sentinel Suite (Sentinel, Sentinel X, Sentinel Z)** is connected through the VIP Copier Direct Connect form instead, covered in Part F. Do not look for the Sentinels on the social trading board.

15 Open Social Trading and click Browse signals

With your wallet funded, open the **Social trading** tab in the left-hand menu of the Traders Room and click **Browse signals**.

The screenshot shows the Aeron Trader Dashboard. On the left, the 'Social trading' menu is expanded, showing options: 'Create signal', 'My subscriptions', 'Browse signals', 'Orders', 'Reports', 'Credit Card Deposit', and 'Portal'. Red arrows point to 'Browse signals' and 'Orders'. The main content area is titled 'Connect Your Trading Account/Wallet To A Social Trader'. It features a table of existing wallets and a section for requested wallets.

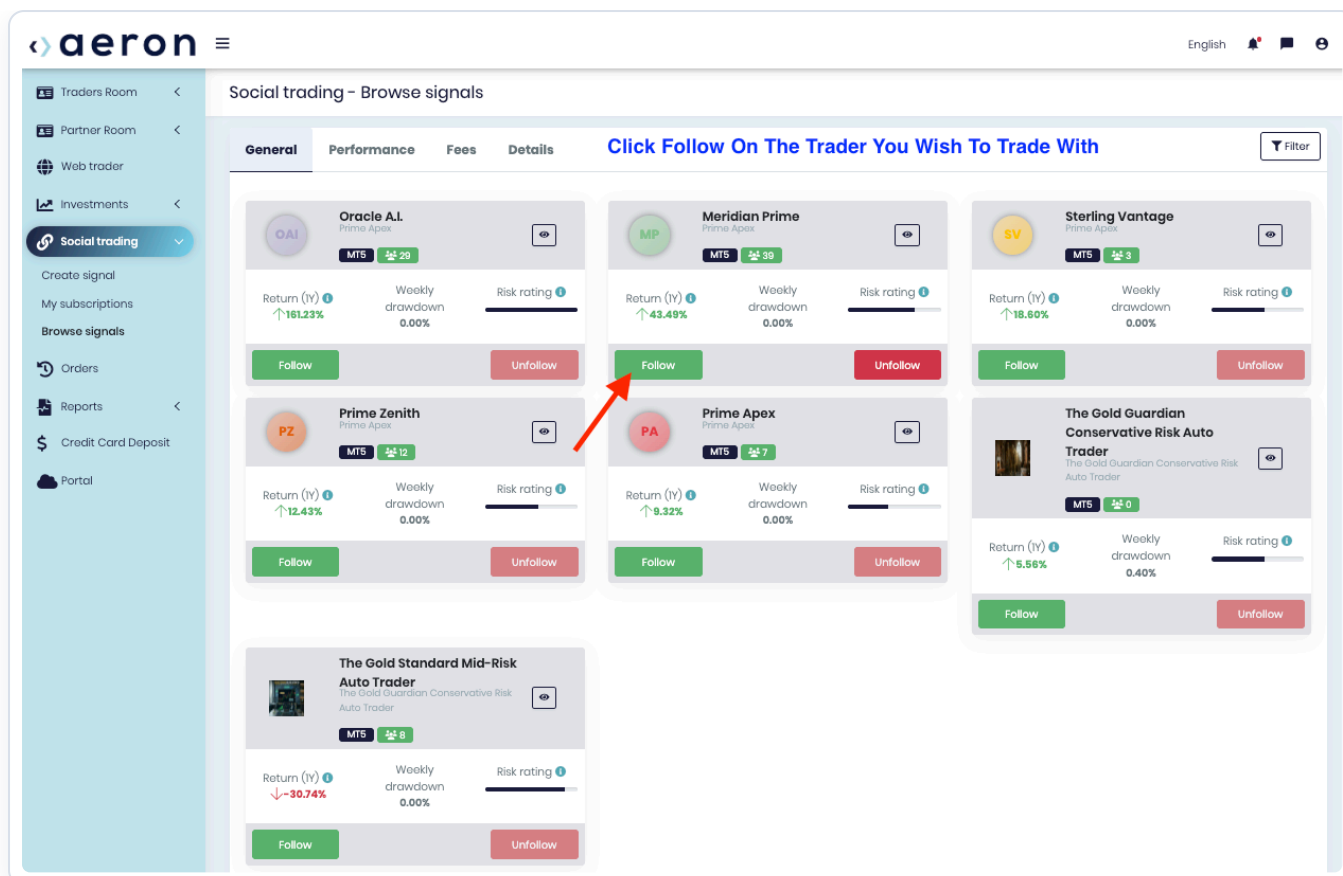

Wallet	Leverage	Balance	Equity	Credits	Trading account
MTS #359473 - Meridian Prime	1:500	USD 534.65	496.72	0.00	3145
MTS #358795 - SentinelZ	1:500	USD 0.00	0.00	0.00	3135

Requested	Wallet type	Currency	Leverage	Wallet name
25 minutes ago	Trading account	USD	100	

Social trading menu, with Create signal, My subscriptions, and Browse signals.

16 Find your trader and click Follow

Locate the trader you funded a wallet for and click the green **Follow** button beneath their card. The example below follows Meridian Prime. The Performance, Fees, and Details tabs at the top let you review each signal before you commit.

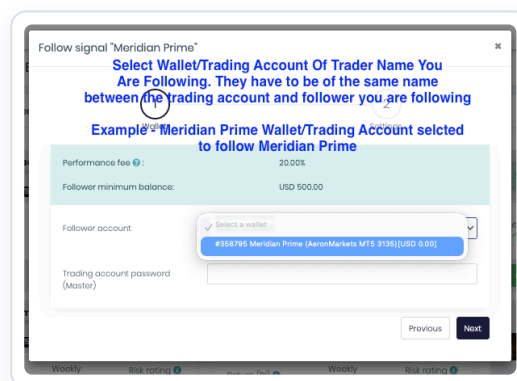

Browse signals. Click Follow on the trader you want to follow. Figures shown are historical and change daily.

17 Select the matching wallet and check the minimum

The Follow window shows the trader's performance fee and minimum balance. In **Follower account**, choose the wallet with the same name as the trader you are following. For Meridian Prime, select your Meridian Prime wallet.

If your wallet balance is below the minimum, a red notice appears and you cannot continue. Fund the wallet first (Part D), then come back.

Choose the wallet that matches the trader.

18 Enter the MT5 master password for that wallet

The window also asks for the **Trading account password (Master)**. This is the MT5 password for the specific wallet you selected, not your back office login. To find it:

- 1 Note the four-digit trading account number shown next to the wallet name in the dropdown (3135 in the example).
- 2 Search your inbox for an email from **support@aeronmarkets.com** with the subject **MT5 platform login details**. You receive one for each wallet.
- 3 Find the email whose **Login** matches that four-digit number, and copy the **Password** shown directly beneath it.

MASTER, NOT INVESTOR

Use the main **Password** (the master password). The **Investor Password** listed lower in the same email is read-only and will not work here.

Enter the password and click **Next**.

Match the account number in the dropdown to the Login in your MT5 email, and use that password.

19 Set the copier: Proportional by equity, risk factor 1, Finish

On the Settings screen make two changes and leave everything else exactly as it is:

SETTING	VALUE
Type	Change to Proportional by equity
Risk factor	1 (mirrors the trader's exact risk level)
Everything else	Leave as default

Click **Finish**. You are now connected.

UNDERSTANDING THE RISK FACTOR

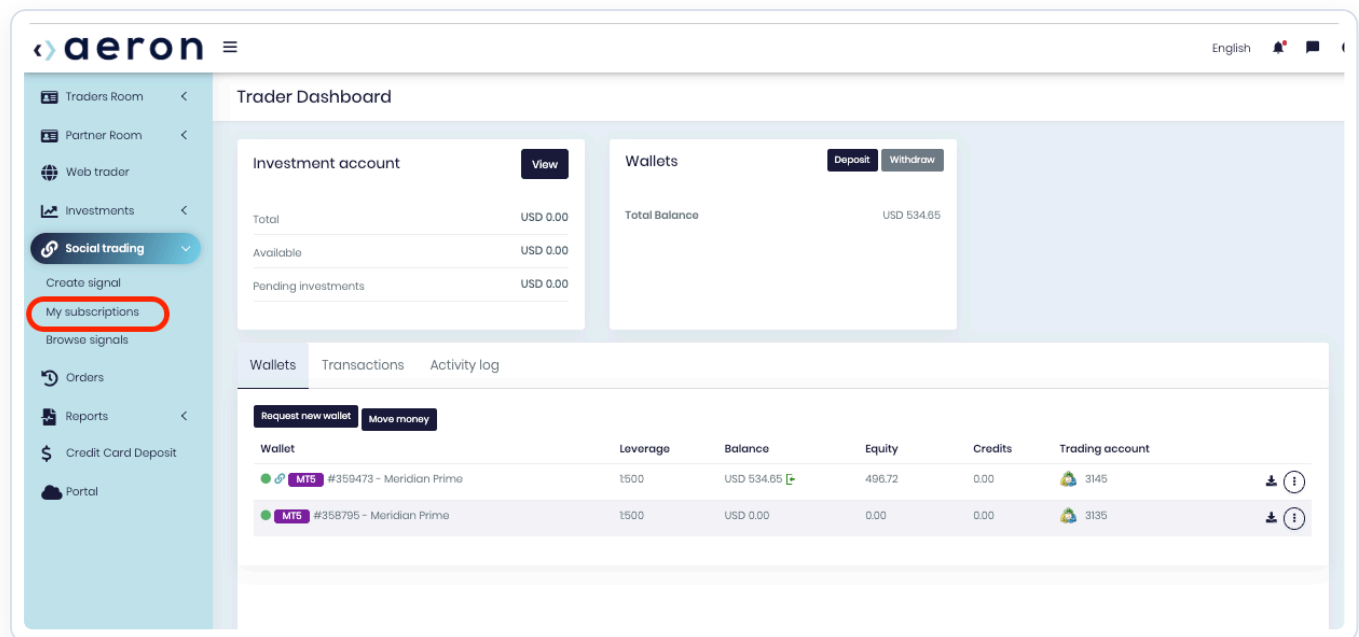

A value above 1 means you are taking more risk than the trader; below 1 means less. The risk level is your personal decision. The trader trades according to their own risk management plan.

Type set to Proportional by equity, risk factor 1.

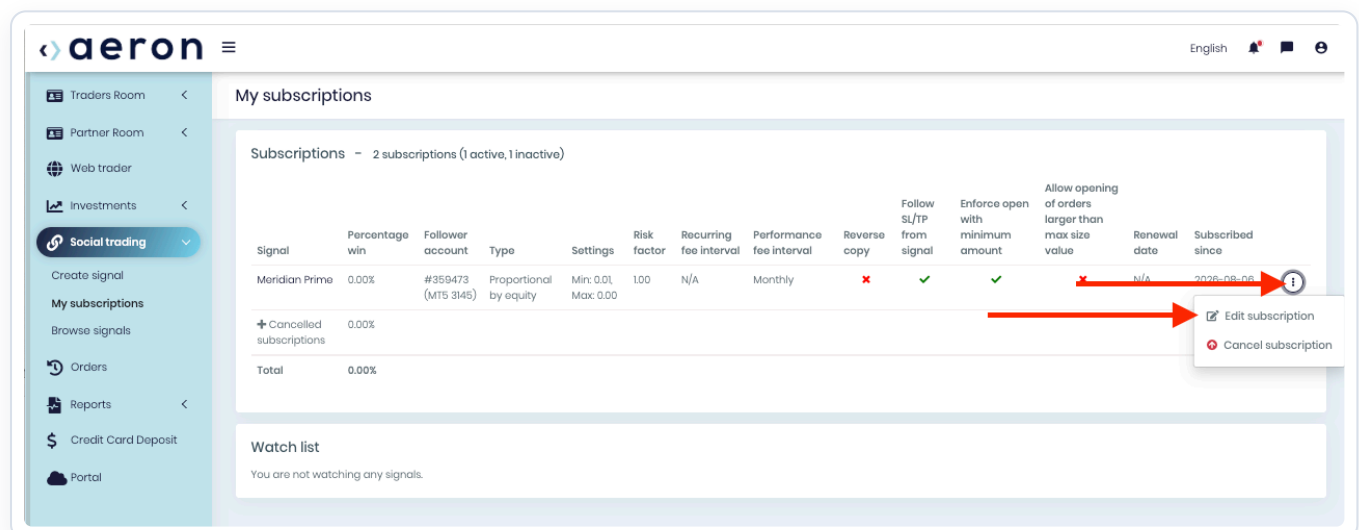

20 You're connected. Manage it under My subscriptions

To view or change your connection at any time, open **Social trading → My subscriptions**. Your active subscription is listed with its follower account, type, and risk factor. Click the **three dots (:)** at the right

of the row to **Edit subscription** (change your copier settings) or **Cancel subscription** (stop following from that point onwards).

My subscriptions in the Social trading menu.

The subscriptions table. Three dots on the right open Edit and Cancel.

REPEAT FOR EACH TRADER

Following a second trader on the social trading board? Repeat steps 15 to 19 with that trader's own funded wallet.

F PART F Sentinel Suite: connect via the VIP Copier Direct Connect form

NOT THE SOCIAL TRADING BOARD

Sentinel, Sentinel X, and Sentinel Z are never connected through Browse signals. They use a dedicated VIP copier, and you connect through a form on the Sterling website.

The Sentinel Suite trades very quickly, typically in and out of a position in around **8 seconds**. To ensure every trade executes faithfully into your account, the suite runs on an elite VIP copier service at a small cost of **\$20 per month per trading account**.

21 Request and fund a Sentinel wallet for each Sentinel

Use **Request new wallet** in your Aeron back office and select the **Sentinel** wallet type (Part C). Remember the rule: one wallet, one trading account, one trader. To follow all three Sentinels, request three Sentinel wallets. Rename them Sentinel, SentinelX, and SentinelZ if you like (step 09).

Once each wallet is active, fund it (Part D). **Every Sentinel requires a minimum of \$1,000** per trading account.

22 Open the Direct Connect page and click Activate

Go to sterlingcapital.tech/aeron-markets-guide/#aeron-submit-sentinel-suite-vip. The video on that page walks through the form step by step. When you are ready, click **Activate the Direct Connect**.

10 Submit for the Sentinel Suite Direct Connect Service

TAKE THE NEXT STEP

Activate the Direct Connect →

Show transcript

Video Shows step by step Instructions on how to submit the form correctly

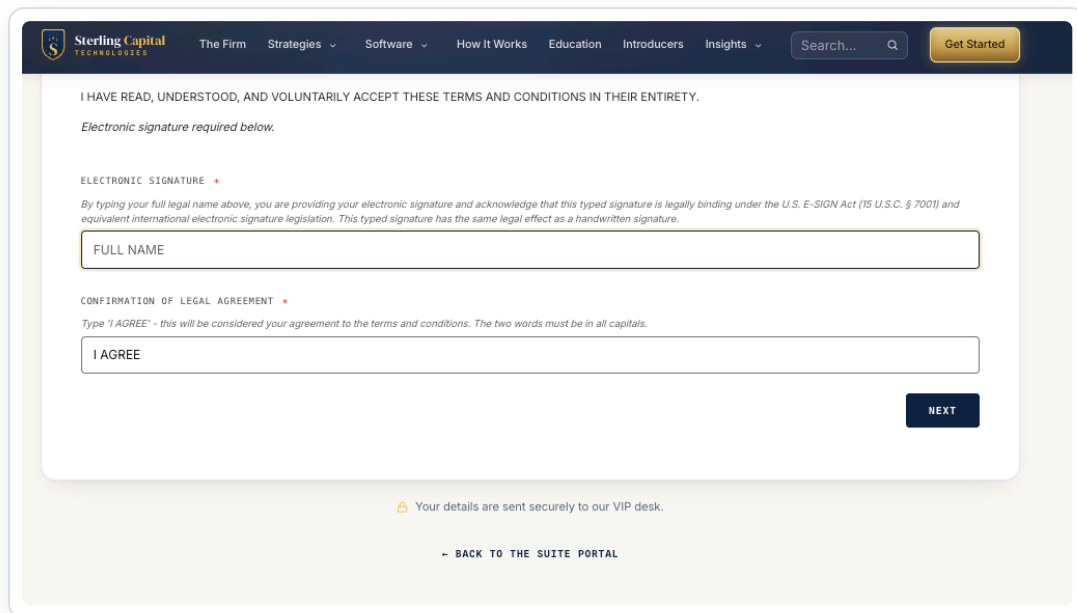

Click To Go to the form where you can connect your Sentinel Wallet/Trading Account to the VIP Copier with your MT5 trading account credentials

Step 10 on the Aeron Markets guide page. Watch the video, then click Activate the Direct Connect.

You will be asked to **sign up with your email** to receive Direct Connect access. This unlocks the connection form.

23 Accept the terms with your electronic signature

Read the terms and conditions, type your **full legal name** as your electronic signature, then type **I AGREE** in capitals in the confirmation box. Click **Next**.

The screenshot shows a web form for accepting terms and conditions. At the top is a navigation bar with the Sterling Capital Technologies logo and links to 'The Firm', 'Strategies', 'Software', 'How It Works', 'Education', 'Introducers', and 'Insights'. There is a search bar and a 'Get Started' button. The main content area contains the following text: 'I HAVE READ, UNDERSTOOD, AND VOLUNTARILY ACCEPT THESE TERMS AND CONDITIONS IN THEIR ENTIRETY.' followed by 'Electronic signature required below.' Below this is a section titled 'ELECTRONIC SIGNATURE' with a note: 'By typing your full legal name above, you are providing your electronic signature and acknowledge that this typed signature is legally binding under the U.S. E-SIGN Act (15 U.S.C. § 7001) and equivalent international electronic signature legislation. This typed signature has the same legal effect as a handwritten signature.' There is a text input field labeled 'FULL NAME'. Below that is a section titled 'CONFIRMATION OF LEGAL AGREEMENT' with a note: 'Type "I AGREE" - this will be considered your agreement to the terms and conditions. The two words must be in all capitals.' There is a text input field labeled 'I AGREE'. At the bottom right is a 'NEXT' button. At the very bottom, there is a lock icon and the text 'Your details are sent securely to our VIP desk.' and a link 'BACK TO THE SUITE PORTAL'.

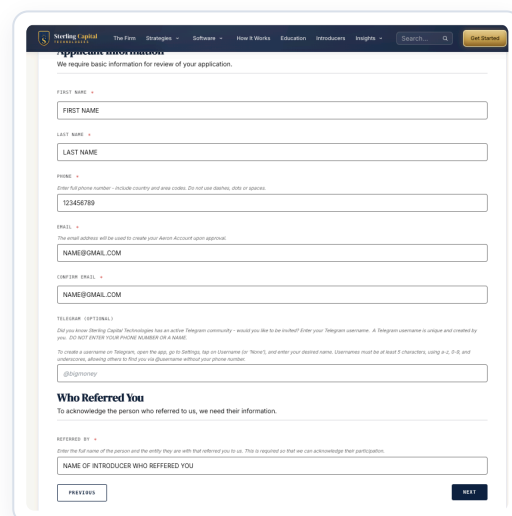

Electronic signature and confirmation of legal agreement.

24 Fill in your applicant information

Enter your first and last name, phone number (country and area code, no spaces or dashes), and email. Use the **same email as your Aeron account**.

Telegram is optional. If you would like an invite to the Sterling community, enter your Telegram **username** (not your phone number).

Under **Who Referred You**, enter the full name of the introducer who referred you so they can be acknowledged. Click **Next**.

The screenshot shows a web form for applicant information. At the top is the same navigation bar as in the previous form. The main content area contains the following text: 'We require basic information for review of your application.' Below this are several text input fields: 'FIRST NAME', 'LAST NAME', 'PHONE' (with a note: 'Enter full phone number - include country and area codes. Do not use dashes, dots or spaces.'), 'EMAIL' (with a note: 'The email address will be used to create your Aeron Account upon approval.'), and 'TELEGRAM (OPTIONAL)' (with a note: 'Did you know Sterling Capital Technologies has an active Telegram community - would you like to be included? Enter your Telegram username. A Telegram username is unique and created by you. DO NOT ENTER YOUR PHONE NUMBER OR NAME!'). Below these is a section titled 'Who Referred You' with a note: 'To acknowledge the person who referred to us, we need their information.' There is a text input field labeled 'NAME OF INTRODUCER WHO REFERRED YOU'. At the bottom are 'PREVIOUS' and 'NEXT' buttons.

Applicant Information and Who Referred You.

25 Choose the Sentinel, enter that wallet's account number and MT5 password

On the Account Type screen, select the Sentinel you are connecting: **Sentinel**, **Sentinel X**, or **Sentinel Z**. Then enter:

- ▶ **MetaTrader trading account:** the four-digit trading account number of the specific Sentinel wallet you are connecting. Cross-check it against the named wallet on your Aeron Trader Dashboard.
- ▶ **Password:** the master password for that account from your **MT5 platform login details** email, exactly as in step 18. Not the investor password.

Account Type. Sentinel type, four-digit trading account, and master password.

BALANCE MULTIPLIER

The left-hand panel explains the balance multiplier (0.25x steps). Sentinel Z strictly uses a 1x multiplier. For the others, 1x mirrors the trader's own risk; anything above 1x increases your exposure and is your responsibility.

26 Submit, then wait for confirmation

Click **Next**, review, and **Submit**. That is it. A member of the Sterling team will reply within **24 to 48 hours** confirming your connection is live. Connecting a second or third Sentinel? Submit the form again, once per wallet.

27 Adjusting or cancelling a Direct Connect subscription

Use these links whenever you need to change copier settings or stop trading on a Sentinel account. Cancelling stops all new trades on that trading account from that point onwards.

Cancel Direct Connect

sterlingcapital.tech/aeron-markets-guide/#aeron-cancel-vip-copier

G PART G Monitor on the MetaTrader 5 app

28 Download MetaTrader 5

To watch your trading accounts on the go, download the **MetaTrader 5 (MT5)** app by MetaQuotes from the App Store or Google Play.

Search "metatrader 5" in your app store.

29 Search for Aeron and log in with your MT5 credentials

Open the app, go to **Settings** → **New Account**, and in the broker search type **Aeron**. Select **Aeron Limited** (server *AeronLimited*). Then enter the login number and password from your **MT5 platform login details** email. Add one login per wallet if you hold several.

Use search to find a company

The application may feature brokerage companies which may not be regulated in your country. Exercise caution and responsibility before opening an account with any brokerage company.

Contact details are provided for each company. Use them to further research their regulatory status and services. MetaQuotes may not possess complete and updated information about the regulation status of brokerage companies in particular countries and does not guarantee their reliability or reputation.

Broker search inside the MT5 app.

Aeron Limited
AeronLimited

Type "aeron" and select Aeron Limited.

SECURITY TIP: USE YOUR INVESTOR PASSWORD

Consider logging in to the app with your **Investor Password** rather than your master password. It gives read-only access, so no accidental trades can be placed. With the master password active, the buy and sell buttons are live. If you cannot find your Investor Password in your email, contact support@aeronmarkets.com with your trading account number and they will send it.

HAPPY TRADING

You're set up and *ready to go*.

Questions? Your Sterling Capital Technologies introducer is here to help at every stage, or reach the team directly at support@sterlingcapital.tech.
